

Nosarumen Imuentinyan

Frontend Developer

CONTACT INFO

nosarumenimuentinyan@gmail.com

I am an energetic and agile frontend engineer with a keen eye for design and currently seeking out my next challenge. I develop fast loading and responsive websites that meets customer requirements and achieve business objectives using Typescript, React and other modern technologies while leveraging my experience contributing to a team of software engineers in a Scrum based Agile delivery working environment. I am also well experienced in working with high-growth SaaS companies.

EXPERIENCE

Frontend Developer

First City Monument Bank (FCMB)

Jul 2022 – Present (1 year) | (Hybrid) | **React, TypeScript**

- I contributed to the creation and optimization of the SME Online Account Opening portal and playing an active role in the testing, troubleshooting, and resolving issues such as those related to performance, accessibility, browser compatibility and security.

Frontend Developer

Muzzlab Technologies

April 2020 – July 2022 (2 years) | (Remote) | **React, JavaScript, TypeScript**

- Collaborated with the project manager and backend engineer.
- Effectively communicated with the product designer to ensure pixel perfect development of the user interface with minimal supervision.
- Ensured cross-platform development and optimization for mobile responsiveness.
